

# Y1 WEEKLY UPDATE

*Success for Every Child*

## Unit of Inquiry and Literacy

As preparations for our Story Showcase next week continue, the excitement levels are building! We are so impressed with how beautifully the children's ideas have developed. They have been inspired by the many different stories we have shared. As they have planned and constructed their own stories, they have also been thinking of ways to present them to you at the Story Showcase. They have been busy colouring, painting, cutting and sticking as they make props to go with their stories.

## Mathematics

This week the children have been consolidating their understanding of time. They have been learning how to read clocks by telling time to hour and for those who are interested in knowing more, how to apply their knowledge of counting in 5s to count the minutes that have passed. Some classes have explored how long a minute is by carrying out activities within one minute. The children clapped, said their names, wrote as many words as they could amongst other fun things! They have discovered that when someone says that they will be there in a second, it will take much longer!

## Home Readers

Home readers will be collected this Friday as there will be no more exchanging of books. If any books are not returned tomorrow, we would request that they be sent in by Tuesday.

## Story Showcase

Tuesday, 21<sup>st</sup> June is the day the children will perform songs for you (in the hall) as well as share their stories with you (in their classrooms). You may wish to take your child home with you after this at 12:00 pm. Please inform the class teacher before you do so. You may wish to cancel your **Delifresh** lunch for the day.

Thank you for all your help with sending in costumes and helping your child learn their lines if they have a speaking part.

This Thursday we are also excited about our roof top **Teddy Bear Picnic!**

What a busy and fun last week of school before we close for summer!

From the Yr 1 Team,  
Have a wonderful weekend!
