

Y5 WEEKLY UPDATE

Success for Every Child

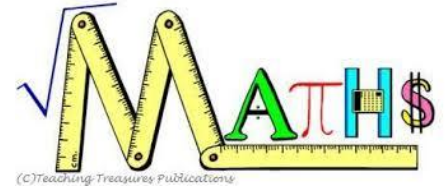

New Unit of Inquiry How We Express Ourselves

Central Idea: Artistic techniques are used to express messages and ideas

This week the students are beavering away completing their weebly to finish off our Sharing the Planet work. Many thanks to Mrs Darling for her excellent guidance and helping us with our ICT skills. Next week we start our new unit. How exciting! Lets get creative and think about art.

As part of our tuning in, for homework over this weekend we would like the students to think about what appears beautiful to them. The object of beauty does not have to be a work of art but anything that makes them feel good. For example it could be a pair of rugby boots! The students need to be able to describe why this particular item is beautiful to them. Get thinking guys!

5R peer assessing their websites

We continue to work on multiplication and division. Most students have been trying different methods of calculating such as long division, short division and the chunking method.

Some students need to learn their times tables as these vital number facts will help complete calculations. Test them on their times table knowledge!

We have been publishing our explanation texts.

Next week we begin looking at some poetry.

Poetry is great fun to read or write as there are no set rules.

We will look at many different types of poetry and try to write some of our own.

From the Y5 Team
